PROFESSIONAL PROFILE

ServiceNow professional with 5+ years in platform development, enterprise integrations and solution architecture, with experience in ITSM and SecOps. PhD researcher in cyber defense at IIIT Guwahati. Seeking SecOps and IRM opportunities, bringing JavaScript development, workflow automation and stakeholder collaboration skills.

CORE EXPERTISE

- **ServiceNow:** ITSM, SecOps, ITOM, CSM, Business Rules, Client Scripts, Script Includes, integrations, Virtual Agent and UI Builder.
- **Automation and delivery:** AI/ML, NLP, generative AI, RAG, LangChain, FastAPI, solution design, proof-of-concept delivery, Agile, Scrum and ITIL.
- **Development:** JavaScript, Python, AngularJS, ReactJS, HTML/CSS and jQuery.
- Enterprise architecture design
- Security controls and traceability
- Cybersecurity research

PROFESSIONAL EXPERIENCE

03/2025 - Present

Solution Architect

Humanize Business Solution Pvt Ltd

- Work across ServiceNow ITSM and Security Operations (SecOps) as part of enterprise solution delivery.
- Design and deliver AI-enabled enterprise solutions integrating ServiceNow, Salesforce and custom SaaS platforms to support intelligent process automation.
- Apply security controls, AI guardrails and traceability to enterprise workflows, with scoped data access, audit trails and review gates for sensitive changes.
- Orchestrated AI agents for task execution, decision routing and intent classification, reducing manual triage and accelerating workflow throughput by **40%**.
- Built document summarization, code generation and AI assistant capabilities using RAG, LangChain and FastAPI; delivered **10+ AI/ML proofs of concept**.
- Mentored junior developers and ML engineers in scalable architecture and software delivery practices.

11/2020 - 02/2025

Software Engineer

Virtusa Consulting Service Pvt. Ltd.

- Designed, implemented and maintained ServiceNow solutions aligned with business requirements, improving client operational efficiency by **25%**.
- Delivered **15+ ServiceNow proofs of concept** to support adoption of larger implementations.
- Developed NLP and machine learning applications to automate workflows and reduce manual effort by **30%**.
- Partnered with stakeholders to align solutions with business objectives, improving customer satisfaction scores by **15%**; reduced system downtime by **20%** through proactive issue resolution.

SAYAN MONDAL

EDUCATION

2025 - 2029 In progress	PhD, Computer Science and Engineering Indian Institute of Information Technology Guwahati BRAIN Lab research: Causal cyber defense and trustworthy threat detection.
12/2022 - 12/2024	M.Tech, Software Engineering Birla Institute of Technology and Science
08/2016 - 07/2020	B.Tech, Computer Science and Engineering Techno India University, West Bengal

HOBBIES AND LANGUAGES

Hobbies: Reading and writing.
Languages: Bengali (native), English (very good command), Hindi (working knowledge).
